## Modul 8

1.

The screenshot shows the phpMyAdmin interface with a MySQL query executed. The query is:

```
SELECT jenis_transaksi, jumlah AS "Rp", COUNT(jumlah) FROM transaksi, nasabah WHERE nasabah.id_nasabah = transaksi.id_nasabahFK AND nama_nasabah LIKE "%kartika padmasari" GROUP BY jenis_transaksi;
```

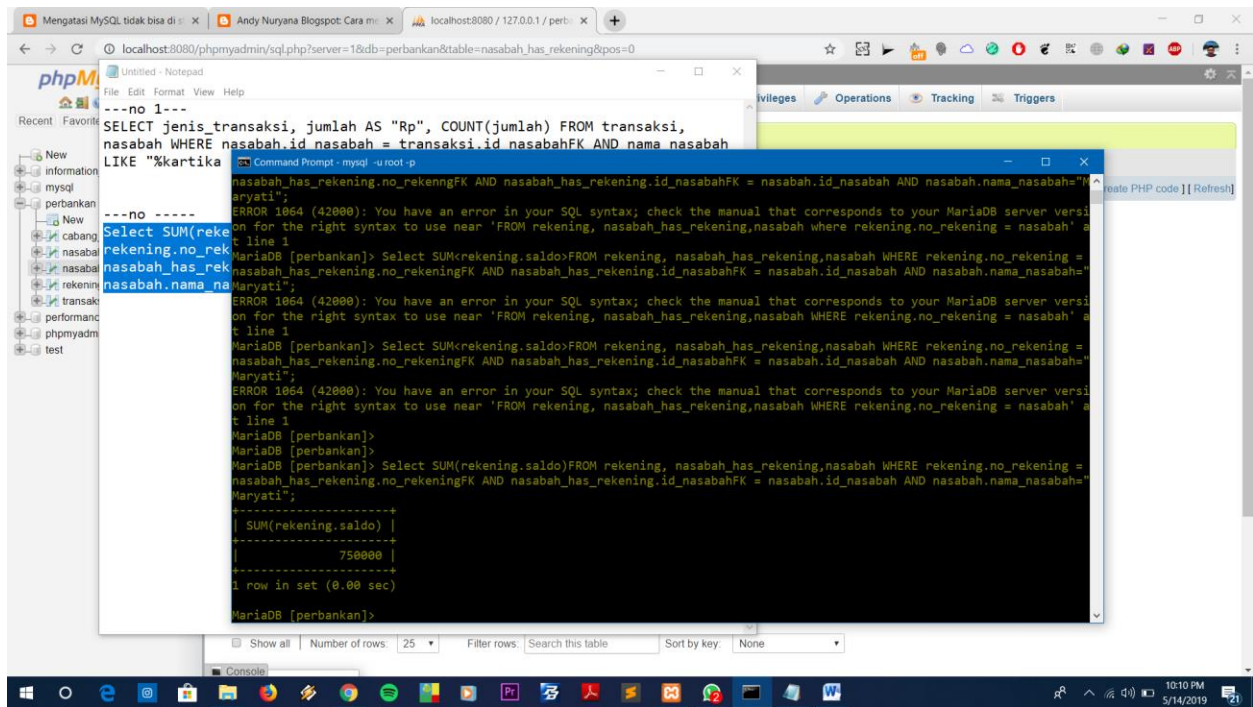

The result shows 2 rows in set (0.00 sec):

jenis_transaksi	Rp	COUNT(jumlah)
debit	100000	2
kredit	20000	3

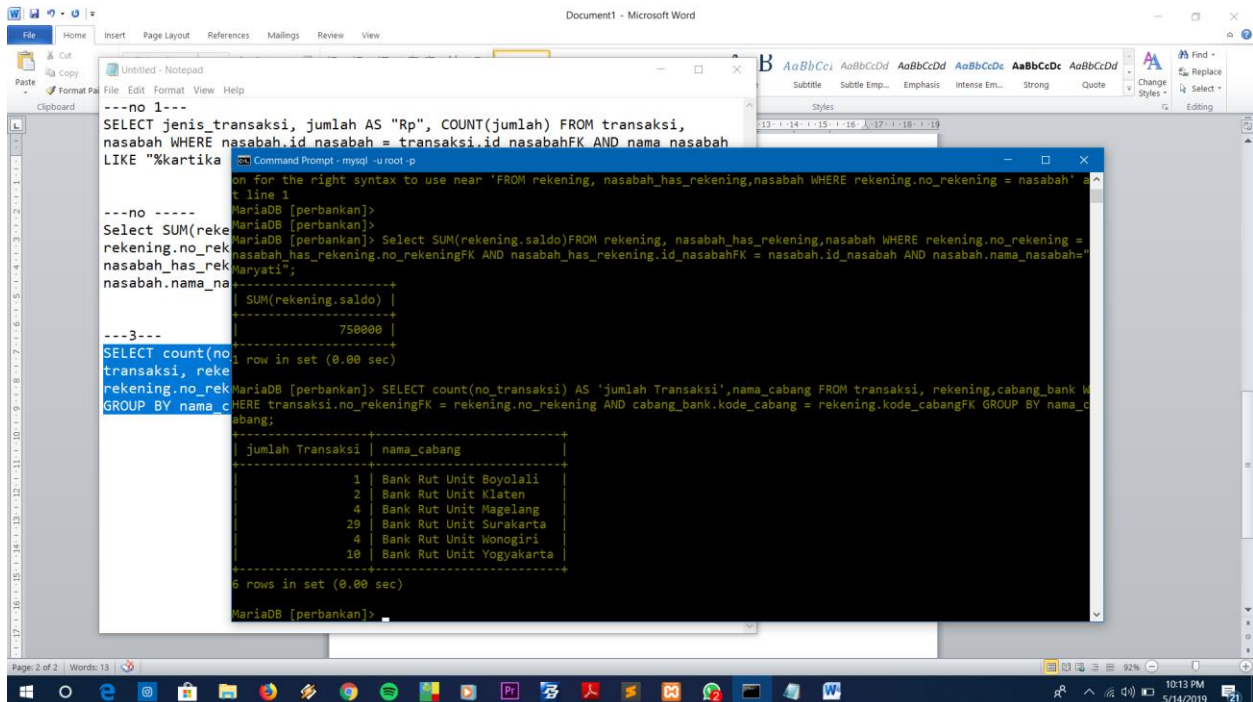

Below the query result, there are two messages:

- MySQL returned an empty result set (i.e. zero rows). (Query took 0.0003 seconds)
- /\*140101 SET NAMES utf8 \*/
